

ZC910 SMOKE DETECTOR

Description	Conventional Smoke Detector
Specification	EN54 part 7
Compatibility	Compatible conventional systems
Mounting	Plugs into ZCBASE surface base
Area coverage	80m ² , subject to local codes
Wiring	2 wire zonal;
Indication	Dual LED's on either side of the detector. Alarm (continuous red), service and fault (flashing red), Health (flashing green)

Parameters	
MAX HUMIDITY	95% RH non condensing
OPERATING CURRENT QUIESCENT	135uA
OPERATING CURRENT ALARM	109mA @24V with no panel limit (Alarm current is limited by panel in practice)
SUPPLY VOLTAGE	9-30V
SMOKE SENSOR OPERATION	Light Scatter
OPERATING TEMPERATURE	-10 to 75 degrees Celsius
WEIGHT	110g without base; 150g with base
DIMENSIONS	107mm Diameter; 54mm Height
COLOUR	White
MATERIAL	ABS

Wiring is completed on the ZCBASE
