Fire Document Holder

Overview

In an emergency, every second counts. The ZYTEQfire Document Holder ensures you never waste time searching for critical fire safety plans and log books.

This robust metal cabinet centralises your most important files, making them instantly available for fire crews during an evacuation or for compliance checks by a fire officer. Safeguard your documents with the included lock and key system, providing access only to your designated fire safety staff.

Built to last with a durable powder-coated finish and clearly labelled for quick identification, it's the ideal storage solution for compliance and peace of mind. Easily mount it to any wall near your fire alarm panel to keep all your safety resources in one place.

Features

- **Centralised Storage:** Holds all your key documents, including log books and building plans.
- **Rapid Access:** Ensures critical information is immediately retrievable during emergencies or official inspections.
- **Lockable Security:** Supplied with a lock and two keys to limit access to authorised personnel.
- **Robust & Visible:** Made from durable, powder-coated metal and clearly labelled "Fire Documents".
- **Simple Wall Mounting:** Features four fixing holes for easy installation near fire safety equipment.
